The Show and Tell System for any PC

**Show what you are discussing.** Have you ever been in a presentation where the person reads their PowerPoint? It can be boring. So imagine the better solution called [iSeeStand.com](http://iSeeStand.com). It is the only portable collaboration tool that runs on any Microsoft based Personal Computer to deliver clear effective communication and shows what you are talking about.

**How does it work?** The [iSeeStand.com](http://iSeeStand.com) visual system consists of a portable mounting stand that holds the included high definition camera vertically over your desk, a conference table, or any flat surface. Easily show and record anything to your audience by placing documents and objects directly under the high definition camera on: A laptop screen, PC monitor, Flat Screen TV, LCD Projector, Across the Internet using Web Conferencing

**So Portable It Fits In Your Pocket.** Or briefcase. And it weighs less than one pound. Think of the "I See Stand" as a replacement for all Overhead Projectors, Flip Charts, Smart White Boards, and other communication methods. It solves the problem of visually communicating your subject matter. And it sets up in under 15 seconds.

**Leave the PowerPoint & OverHead Behind.** The system comes with the stand, table base, and high definition software. You supply your own webcam.

**Get Everyone In The Room On Same Page.** No more stacks of meeting notes, copying, and distribution of hand-outs. The camera takes pictures and videos and emails the information immediately. What a time saver!

**Price \$95 + \$5 shipping + tax (if applicable) Order at [IcStand.com](http://IcStand.com) Call (678) 759-9066 for bulk sales and for mass distribution to 'BIG BOX' resellers, Corporations, GSA Government agencies, school systems.**
