**Show what you
are discussing.**

How does it work? PhoneCradle is the most universal support system ever developed. It fits any smart phone, sits on any office, school, and home desk. It works on top of any tripod ever made and also attaches to visor of any car, truck, or vehicle.

So Portable It Fits In Your Pocket. Weighs less than 4 ounces. Think of the "PHONE CRADLE" as a replacement for all Overhead Projectors, Flip Charts, Smart White Boards, and other communication methods. It solves the problem of visually communicating your subject matter. And it sets up seconds.

Get Everyone In The Room On Same Page.

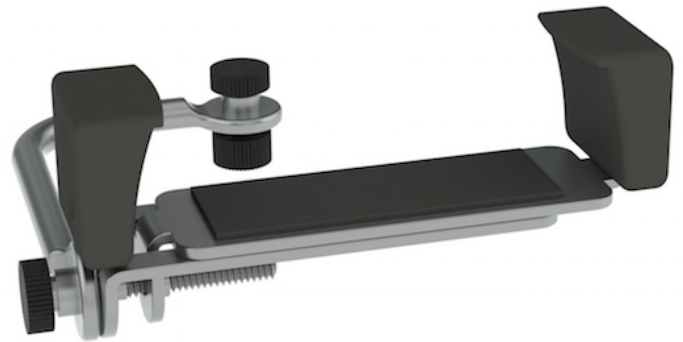

Works directly with IcStand.com

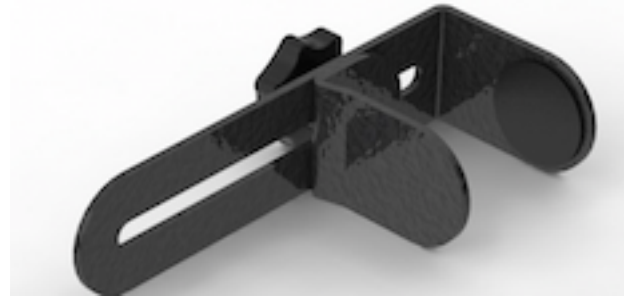

Call (678) 759-9066 for bulk sales and for mass distribution to 'BIG BOX' resellers, Corporations, GSA Government agencies, school systems. Keith Duncan BuiltByKeith.com LLC Billionaire.
